

Item 3m Partner Updates

Organisation	Kingsbridge Town Council
Date	14 December 2009
Summary of Progress	<p>Community Centre for Kingsbridge: Discussions continue with DCC concerning funding and feedback is expected after a meeting of the IID committee in January. Other funding routes e.g. SDLAG are also being pursued and more detail is being gathered to refine the Business Case.</p> <p>DPD: the late delivery of the draft DPD is viewed with concern since it may limit the period for 'informal' feedback. KTC has written offering an opportunity for presentation to public and Councils and is preparing feedback on what is known already.</p> <p>Destination Kingsbridge continues to strengthen and is proving a valuable forum to take an overview of what is required to be done towards the establishment of Kingsbridge as a prime destination. The decision has been made to run a further set of free 'Concerts on the Quay' next year funded and managed by KTC.</p>
Current / Shared Issues	<p>Asset Transfer: A proposal has been received concerning the possible transfer of assets to parish and town councils. A series of meetings is planned for the new year. KTC has met to endorse a set of ground rules and to support active participation in any discussions.</p>
