## HOMES STRATEGY

Proposal	Impact	Action / Objective / Target OR Justification	I/R/S/A
The Housing Strategy contains various priorities and actions that affect people in housing need.	The actions we will undertake provide positive impacts for: 1. Older people. 2. Young people. 3. Disabled – physical and mental. 4. Gypsies and travellers. 5. People on low incomes. 6. People who are isolated. 7. People who are vulnerable	It is important to ensure that people in housing need are adequately housed. In particular those who are more vulnerable require greater help to access appropriate housing and support to live independently.  Action on Gypsies and Travellers could alter to “enable” rather than “seek to enable” a site but as the Councils do not own suitable land themselves it will be necessary to work with landowners and other partners to achieve this so “seek to enable is more appropriate.	R (part of draft strategy being submitted to Members for approval)
Strategy seeks to ensure appropriate sustainable development.	Will provide a more balanced housing market and sustainable local communities.	It is important to provide the right type and mix of housing in the right locations to meet identified need. Communities also require appropriate infrastructure and facilities to make them sustainable.	R (part of draft strategy being submitted to Members for approval)
