Re : "Sherford Refined" proposal.

Dear Sirs

I wish to SUPPORT the Plymouth & South West Co-operative Society proposal for the proposed Sherford development :

1. It provides a more effective route for public transport through dual access from the A38 at Deep Lane and the A379 at Chittleburn.
2. It avoids constructing a new road across King George Playin Fields Elburton or use roads northwards through Plympton thus avoiding the loss of important amenity land to the residents of Plymstock, Elburton & Plympton.

I hope you will register this letter as valid as I am unable to obtain the formal document suggested, having been confined to the house with pneumonia this last three weeks.

Yours faithfully,

S.P.Wallis (Mrs). signed.
